	Optional Rear Squeegee	Para 33	48415040
	Optional Rear Squeegee	Linatex	48415030
	Optional Rear Squeegee	PU	48415050

<p><b>Specifications of the material</b></p>	
<p><b>PU (polyurethane)</b> It is a transparent oil resistant material and dries well also tiled floors and floors with medium-sized joints.</p>	
<p><b>Antiolio (Oil-resistant)</b> White color with hardness which goes between 40sh and 50sh. Suitable to dry oily floors, but not with an elevated drying result and rolled concrete floor (not tiled floors).</p>	
<p><b>Vulkollan</b> Particular type of polyurethane; it is used mainly for the front rubber. It does not have particular drying characteristics.</p>	
<p><b>Para 33 shore</b> Dark red color; it is a very pure natural rubber and it has excellent drying characteristics, especially on tiled floors. Because of its softness, this rubber is not recommended on very rough floors.</p>	
<p><b>Para 40 shore</b> Brown color; it has good drying characteristics on all types of floors and it is also resistant.</p>	
<p><b>Para 50 shore</b> Light brown color; suitable for industrial floors with an excellent resistance.</p>	
<p><b>Linatex:</b> It is the commercial name of a particular type of rubber in para (natural rubber). Its color is light red and it is suitable especially on floors with large and deep joints (such as supermarket floors).</p>	
<p><b>PS: All squeegee rubbers are provided with the part number stamped on them, this to help avoid ordering mistakes.</b></p>
